Cray T3E Account Request

Name of the person responsible for the project:
E-mail:
Tel.:
CSC project number:
User ids to be opened on T3E:
Description of the application program:
Requested total time (wallclock time in hours × number of processors):
Average number of processors:
Total memory requested (MB):
Special requests:

The user ids are personal and they will be used only to run the application program described above.
I agree to obey the rules prescribed by CSC.

Place, date, and signature

The project is supposed to have user ids and a quota already allocated on other CSC's computers.
The mailing address for this proposal: CSC – Tieteellinen laskenta Oy
Käyttöluvat
P.O. Box 405
02101 Espoo

The applicant will be contacted via e-mail or phone. After discussion, a test account on max. 16 processors can be allocated for three months. During this time the project should show the parallelization and scalability of the application program. After passing this test, the project will be granted a final allocation by the Scientific Director of CSC. The account will be valid one year from the date of the decision. If the application program appears to be inappropriate for the computer, CSC has the right to cancel the accounts already granted. Additional questions will be answered by the adviser on duty at CSC's helpdesk, e-mail helpdesk@csc.fi, tel. (09) 457 2821.
