Home page (stable DOI): <https://doi.org/10.5281/zenodo.16894225>

## Overview

The entropy-coupled-operator-dynamic package provides LaTeX support files for the Entropy-Coupled Operator Dynamic work. This minimal PDF satisfies CTAN's requirement for compiled documentation. For full documentation and updates, see the DOI above. If a GitHub repository is provided later, CTAN metadata should avoid duplicate URLs.

## Installation

Place entropy-coupled-operator-dynamic.sty in your TEXMF tree or alongside your .tex document.

## Usage

Add the following line to your preamble:

```
\usepackage{entropy-coupled-operator-dynamic}
```

## CTAN Metadata Note

Avoid duplicate URLs. If GitHub links are not public/ready, leave fields empty. Use the DOI above as the sole Home page.
