## 1 Overview

Several Adobe® fonts provide ‘hidden’ ornaments, fleurons, and other typographic flourishes as additional features. These can be annoying to access in L<sup>A</sup>T<sub>E</sub>X. This package provides any easy command to use the ornaments, and a guide to the individual ornaments to enable easy use (appended to this documentation and available separately in the package as `adobeornaments-list.pdf`). **The fonts with these ornaments are sold by Adobe® and not provided with this package. You must purchase them separately for the package to work, or, in the case of Minion Pro only, obtain the free copy bundled with Adobe Reader.**

## 2 Usage

The package provides a single command `\orn{$font}{$number}`. The numbers of each ornament are provided in the aforementioned guide. The font options, as shown in the appendix, are:

Font	Command
Adobe Caslon Pro	<code>caslon</code>
Adobe Garamond Pro	<code>agp</code>
Adobe Jenson Pro	<code>jenson</code>
Arno Pro	<code>arno</code>
Bickham Script Pro	<code>bickham</code>
Brioso Pro	<code>brioso</code>
Chaparral	<code>chaparral</code>
Cronos Pro	<code>cronos</code>
Garamond Premier Pro	<code>gpp</code>
Kepler Std	<code>kepler</code>
Minion Pro	<code>minion</code>
Warnock Pro	<code>warnock</code>
Silentium Pro	<code>silentium</code>
Voluta Script Pro	<code>voluta</code>

For example, the commands

```
\orn{minion}{1}\orn{caslon}{44}\orn{kepler}{31}
```

Produce:

### 3 Development

Bugs, feature requests, *etc*, should be submitted to the project's official GitHub page: ([github.com/ezgranet/adobeornaments](https://github.com/ezgranet/adobeornaments)).

### 4 Licence

This project is licensed under the L<sup>A</sup>T<sub>E</sub>X Public Project Licence version 1.3c. This documentation is copyright of the author but licensed under CC-BY-SA 3.0.

## 5 Implementation
