

Facility Mapping Kit

To win your bet, you will need to make a map of THE FACILITY.

Instructions

1. Print out page 2 of this document. (The map grid.) Turn it sideways. You start in the LOBBY in the middle of the bottom row.
2. As you move around, write in the room names. Don't try to write the whole name, unless you have the smallest handwriting in the world! Abbreviations are fine.
3. Draw lines to show which rooms connect to which. If there are special doors or obstacles between rooms, you may want to indicate that.

LOBBY
